

R.01

private apartment

year: 2014

location: via Savona - milan

sqm: 90

at Fabio Azzolina Architetto

Located in Milan city centre, this loft was designed with a modern style, in line with the client's taste. Many pieces of furniture were specifically designed for this project and were carefully detailed. However, the highlight of the project is the bathroom – a converted greenhouse with glass walls partially frosted to ensure privacy.
