

C.04

Flanelli's shop

year: 2012

location: Moscow - Russia

sqm: 60

at Fabio Azzolina Architetto

This shop was designed for a man fashion brand and is located in a historic shopping mall in Moscow. Due to the compact dimensions of the room we proposed to create a 'mirror box', in order to widen the space as much as possible. The central area works as a snug living space, whereas the walls are used for displaying the garments.
